

THE PRIME MINISTER

SOCIALIST REPUBLIC OF VIETNAM
Independence - Freedom - Happiness

No.: 803/QD-TTg

Hanoi, June 28, 2012

DECISION

ON APPROVAL OF NATIONAL STATISTICAL SURVEY PROGRAM

THE PRIME MINISTER

Pursuant to the Law on organization of Government dated December 25, 2001;

Pursuant to the Statistical Law dated June 26, 2003;

Pursuant to Decree No. 40/2004/ND-CP dated February 13, 2004 of the Government detailing and providing guidance on implementation of a number of articles of the Statistics Law;

At the request of the Minister of Planning and Investment,

DECIDES:

Article 1. Approval for national statistical survey program (attached herewith).

Article 2. The Minister of Planning and Investment is responsible for guiding, urging, examining and inspecting the implementation of national statistical survey program and making a report to the Prime Minister on the implementation of this Decision.

Article 3. This Decision takes effect from the date of its signing and supersedes Decision No. 144/2008/QD-TTg dated October 29, 2008 of the Prime Minister on issuing the national statistical survey program.

Article 4. Ministers, heads of ministerial-level agencies, heads of government agencies, Chairman of the People's Committees of provinces and centrally-run cities are in charge of executing this Decision.
/.

PRIME MINISTER

Nguyen Tan Dung

NATIONAL STATISTICAL SURVEY PROGRAM

(Issued with Decision No. 803/QĐ-TTg dated June 28, 2012 of the Prime Minister)

A. GENERAL REGULATION

1. The national statistical survey program includes the list of surveys, timeline of surveys, assigned implementation and conditions to ensure the implementation of surveys. The list of national statistical surveys includes general surveys and statistical surveys which are developed under the provisions in Clause 1, Article 11 of the Statistics Law: “Based on the national statistic indicator system and regulations of the government on integrated statistics reports, the Ministries, ministerial agencies, governmental agencies, the Supreme People’s Court and the Supreme People's Procuracy propose their intended statistic surveys; the General Statistics Office shall aggregate and request the Prime Minister to make a decision on a long-term and annual national statistic survey program
2. Surveys and statistics under the national statistic survey program with the contents meeting the information requirements are specified in the national statistic indicator system issued with Decision No. 43/2010/QĐ-TTg dated June 02, 2010 of the Prime Minister and are under the decision authority of the Prime Minister, Minister, Heads of ministerial agencies and governmental agencies.
3. The Minister of Planning and Investment shall request the Prime Minister to make amendments and addition to the national statistical survey program in accordance with the requirements of social - economic development in each period.
4. The national survey and statistics program is the ground for the Ministries and sectors to actively develop the survey plans and schemes, prepare implementation, estimate funds and decide the statistic surveys in accordance with regulations of law.
5. The agency in charge is the one which develops the survey scheme and conducts the survey, gather, aggregate and announce the survey data.
6. The funds for implementation of survey and statistics under the national statistic survey program are allotted by the state budget and allocated in the estimated budget of the agencies under the provisions of the Law on state budget (including other ones funded by international organizations under project programs) to ensure the scale and nature of each survey.
7. In the years of conducting censuses, based on the national statistical survey program, the agencies in charge are responsible for cooperating with the relevant agencies to integrate a number of surveys to avoid the overlapping of survey subjects, information to save resources spent for surveys, and submit to the government before implementation.

B. LIST OF NATIONAL SURVEYS AND STATISTICS

No.	Name of survey	Purpose of survey	Subjects of survey	Unit of survey	Type of survey	Content of survey	Period and time of survey	Agency in charge	Coordinating agency
I. General surveys									
01	Population and housing census	Gathering of information on population, social laborers and housing for study, analysis of scale, distribution structure and rate of population growth, labor sources and residential housing.	All Vietnamese citizens of habitual residence in the whole territory of Vietnam or temporarily residing abroad.	Residential households	Census combined with sample survey	<p>1. Census:</p> <ul style="list-style-type: none"> - Population by sex, age, ethnicity, religion, school attendance, educational background, and technical professional skills - Quantity and quality of housing; - Gathering of indicators (0201, 0202, 0204, 0212, 0215). <p>2. Sample survey:</p> <ul style="list-style-type: none"> - Besides census indicators , conduct a survey for groups of indicator as follows: - Population by professional training, migration, common language in the family, disability, marital status, labor and 	10-year cycle, on the first date of April (conducted in the years ending in number 9).
